

Access Patient Records in just a few clicks...

Quickly retrieve detailed records for your patients with Patient360. The Patient360 dashboard gives you a robust picture of a patient's health and treatment history and will help you facilitate care coordination.

This level of detail at your fingertips allows you to:

- Immediately retrieve medical history for new patients
- Spot utilization and pharmacy patterns
- Avoid service duplication
- Identify care gaps and trends
- Coordinate care more effectively

Access Patient360 in just a few steps:

- Log in to www.availity.com
- Select Payer Spaces in the top menu bar
- Select the payer tile that corresponds to your market
- Select Applications
- Select Patient360

Please note: You can also access Patient360 via the web-based reporting tool!

Patient360 allows you to view a fuller picture of a patient's health history such as:

- Member Care Summary Eligibility details
- Claims details
- Authorization details
- Pharmacy information
- Care management information

For step-by-step guidance on accessing Patient360, contact your market representative.
